## SUMMARY

As a Frontend Developer, I excel at translating customer requirements into testable engineering plans. My expertise lies in developing visually appealing and responsive web interfaces, ensuring compatibility across different browsers and devices, and collaborating with cross-functional teams to produce exceptional final products.

## EXPERIENCE

### **Frontend Engineer / Developer Experience - Contract**

Dec '22 - Present

**CyberoiSystems** | Mohali, IN

*CyberoiSystems is a purpose-driven company whose beliefs are the foundation for how we conduct business every day.*

- Creating visually appealing and responsive web interfaces with the help of technologies like NextJS, Typescript, TailwindCSS, etc.
- Ensuring compatibility across different browsers, devices, and screen sizes through testing and fallback strategies.
- Collaborating with designers and back-end developers to integrate front-end components with back-end systems, APIs, and databases for seamless functionality.

### **Software Developer**

Sep '22 - Present

**Nextloop Technologies Pvt Ltd** | Indore, IN

*Our people are our greatest strength and to give them an environment to succeed is what we strive for.*

- Developing clean and maintainable code and tests using VueJS, StencilJS, and Typescript
